Mrs. S. A. Allen's Hair Restorer and Dressing. The attention of the public is invitnd to the valuable improvement recently made in this preparation. Its infallable property of quickly restoring Gray Hair to its original color, is here combined with a most agreeable dressing, all in one bottle.

Also her **Zylobalsamum,** another preparation, clear and transparent. A toilet luxury for cleansing, dressing and strengthening the hair, far preferable to French pomades, and at half the cost. Sold by druggists. 331-eom-1y

S. R. Van Duzer & Co.'s Superior Flavoring Extracts are made from selected fruits Sold in Navarre by A. Garver. 331-1y

THE SAILOR'S STORY.

'I've been fourteen years a sailor, Miss, and I've found that in all parts of the world I could get along without alcoholic liquors as well as I could with them, and better too.'

'Some years ago when we lay in Jamaica, several of us were sick with the fever, and among the rest the second mate. The doctor kept giving him brandy to keep him up; but I thought it was a queer kind of keeping up! Why, do you see, it stands to reason, Miss, that if you heap fuel on the fire it will burn faster, and putting brandy to a fever is just the same thing. Brandy is more than half alcohol, you know.

'Well, the night the doctor gave him up I was set to watch with him. No medicine was left, for it was of no use. Nothing would help him, and I had my directions what to do with the body when he was dead.

'Toward midnight he asked for water. I got him the coolest I could find and gave him all he wanted, and if you'll believe me, Miss, in less than three hours he drank three gallons. The sweat rolled off him like rain. Then he sank off and I thought sure he was gone, but he was sleeping as sweetly as a child. In the morning when the doctor came, he asked what time the mate died.

'Won't you go in and look at him?' said I.

'He went and took the mate's hand, 'Why, the man's not dead! he's alive and doing well! What have you been giving him?'

'Water, simply water, and all he wanted of it!' said I

'I don't know as the doctor learned anything from that, but I did, and no doctor puts alcoholics down me, or any of my folks, for a fever, I can tell you! I am a plain unlettered man, but I know too much to let any doctor burn me up with alcohol.'—Temperance Visitor.

INDEPENDENT.

OUR MONTHLY VISITORS

Have accumulated, but for want of time and space notices of them have been deferred until now. We begin with the No. 1 of the list, which is.

The Atlantic Monthly. It has reached volume 26—been good all the time, and still improving. The last number publishes the names of the writers, which has not been done heretofore. These contributors are among the most advanced and popular thinkers of the age. Fields, Osgood & Co., Boston.

Harper's Magazine is quite a book every time. Its contents are probably the most comprehensive of those of any monthly in the country, for beside an immense amount of descriptive, literary and other reading matter, the editor's literary, scientific and historical records, and drawer, abound with information. It has reached volume 51.

The Riverside, beside being a thing of beauty is an instructive visitor as well. The eyes of its numerous youthful patrons must sparkle with delight every month as it greets them with the beautiful writings of Hans Andersen and other writers. Hard & Houghton, N. Y.

The Nursery which signifies a monthly adapted to the capacities and wants of little readers is a success, if time may be regarded as a test, for it has just commenced its eighth volume. J. L. Shorey, Boston.

The Little Corporal improves every time, and his last visit presents him in a still better shape and larger size than he has yet assumed. In short, he comes out in a new suit, in magazine style, finely illustrated, is thoroughly original, increasing in circulation, and is growing to be a captain some day. Sewell & Miller, Chicago.

The Schoolmate always has something agreeable and instructive to the numerous class of juveniles for whose benefit it is so well designed and adapted. Boston, Mass.

Merry's Museum is a museum of literature for learners who would grow up to be useful men and women. Boston.

Good Health by its title tells what a needed and responsible place it fills in the improvement of health—the lengthning of human life. Alex Moore, Boston, Mass.

The Phrenological Journal, a standard reformatory paper, especially in the important matter of mental philosophy. Since its commencement, now some thirty years ago, this monthly has done more to mould and elevate the science connected with the wonders of the human mind than any other publication extant. The pages abound in the best of mental and moral culture. S. R. Wells, N. Y.

Educational Monthly, by E. E. White, of Columbus, discusses the various phases of our school interests with that discrimination and ability that has always marked its progress.

Arthur's Home Magazine and the *Children's Hour,* always noted for their high moral tone and chaste style never fails to be prized by their patrons for their many excellencies. T. S. Arthur & Son, Philadelphia.

Tilton's Journal of Horticulture is a perrennial source of information to all who cultivate the beautiful and useful in the way of fruits, vegetables and flowers. It is the best of its kind in the country.

Our Schoolday Visitor, by Daughaday & Becker, Philadelphia, always greets its many thousands of patrons, with the best of instructions for youthful readers.

Ballou has reached volume 31, and is still in the prime and vigor of youth. Its pages are filled with articles of pleasing and instructive interest. Thomas & Talbot, Boston

Herald of Health tells us how to so live as to be happy, comfortable and useful, and if its teachings were followed by all, almshouses, asylums and other institutions for the physically and mentally unfortunate would soon be tenantless. Wood & Holbrook, N Y.

Among the best educational magazines that of the *New York Teacher* stands conspicuous. It is a long established and has ever been a well conducted periodical, and the last number maintains this high position. J. W. Schermerhorn, N. Y.

The Technologist, especially devoted to engineering, manufactuaing and building, having reached its sixth number, still maintains the prominent place among the indispensable publications of its class. Subjects are discussed in its pages in a scientific manner by writers qualified to treat them as they merit. Industrial publication Co., N. Y.

The Standard—formerly the National Anti-slavery Standard—is a beautifully printed monthly, filled with the best writings of the most advanced thinkers of the times. The real spirit of the old Standard, which was indeed a standard of right, yet manifests itself in the pages of this magazine, and although its visits are not so frequent they are the more welcome, especially when fraught with the inspirations of the leading minds of the country in that reform which has revolutionized the nation. A. M. Powell, editor and publisher, 696 Broadway, N. Y.

To allay itching of the scalp, use Hall's Vegetable Sicilian Hair Renewer. Sold by all druggists.

OHIO STATE FAIR FOR 1870.

The Twenty-first Annual Ohio State Fair will be held at Springfied, on Monday, Tuesday, Wednesday, Thursday, and Friday, the 12th, 13th, 14th, 15th and 16th days of September, 1870, on the Clark county fair grounds.

An examination of the premium list will show that a considerable number of changes have been made in it.—Among these changes is the following one, to which especial attention is respectfully solicited, viz: The award of a premium of $1,000 for the best five acres of wheat. The conditions of this award are fully stated in the fourth department. The premiums will be found to be increased, so that the aggregate will amount to more than $25,000; or the largest amount ever offered by any state in the union.

It will be well for exhibitors to remember that all persons are at liberty to exhibit and compete for any article that they may have, in any class, without fee or price, the entry fee being entirely abolished. In consequence of the abolition of the fee, all parties desiring to exhibit articles are respectfully requested to send a list of such articles to the undersigned—so that the entries may be made, as much as possible, some time previous to the opening of the fair. It is desirable that the entries be made at as early a day as possible, not only not only to secure greater accuracy in the entries themselves, but that the several superintendents may know in advance what to expect in their representative halls, in order to exhibit every article to the best advantage, and to promote the convenience of the awarding committee.

The entry books will be closed on Monday evening, September 12, and articles not entered on the books will be excluded from competition.

In order that every article entered may be displayed in the place, to be examined by the awarding committee, it is very desirable that all such articles be on the ground by Saturday previous if possible. The halls will be in order, and their respective superintendents on the ground to receive articles on and after Saturday the 10th of September.

For further information address the undersigned at Columbus until September 6; after that date Springfield.

JOHN H. KLIPPART,
Cor. Sec. O. S. B. of Agriculture,
Columbus.

HOW THEY KNOW THE YANKEE.

An American traveler tells this story of his foreign experience:

One day last fall in company with an eminent clergyman of London, I was making my way through the Thames Tunnel, when we were stopped by an itinerant vender of pictures, who seemed to know my companion.

'Buy some of these pictures of the public buildings of London, sir?' said he, 'and you can give them to your American friend to take home with him.'

I was in a hurry, but my wonderment would have stopped me if I had been running to a fire.

'How in creation did you know I was an American?' I asked.

'Why, I couldn't mistake that,' the picture seller replied, with a quiet laugh. 'You'r American all over.'

I purchased a picture and then asken him to explain himself.

'I would know you by your soft beaver hat,' he said. 'That's an American fashion.'

'Well—if it were not for that?' He glanced down at my feet.

'Your boots would betray you. No body but Americans wear square toes.'

'Well—what else?'

'Your chin whiskers. Englishmen always wear the mutton chop style.'

'Well—anything more?'

'If you won't be offended, sir?'

'Noi at alt, sir: I am seeking for information.'

'I should know you by your thin, peaked face.'

'Well, my friend,' I said, 'I fancy you are at the end of your catalogue now. Suppose that I wore a stiff, high-crowned hat, round toed boots, mutton chopped whiskers, and had a face as round and chubby as any in Britain—would you be able to know me for for an American then?'

'Certainly I should as soon as I heard you speak,' the fellow triumphantly answered. 'You Americans invariably commence every sentence with a well.'

My English friend laughed long and loud at the man's adroitness.

'I believe he is more than half right,' he said. 'See if your nationality is not detected anywhere you go.'

It was even so. In Paris I was importuned to buy a photograph of Lafayette, because he was 'ze friend of ze American.' In Genoa, a dirty vagabond was clamorous to exhibit to me the house where Columbos was born, because he 'discovered the signor's great countree;' and at Alexandria the climax was capped by a ragged little descendant of the Pharaohs, who besought me to take a ride on his donkey. 'Strong donkey—fast donkey; nice Yankee Doodle donkey!' This was the irresistable appeal, in the only English words he knew.

Mrs. Partington has been reading the health officer's weekly reports, and thinks total must be an awful malignant disease, since as many dies of it as all the rest put together.

THE BEAUTIFUL RIVER.

BY LIZZIE DOTEN.

There's a beautiful land by the spoiler untrod,
Unclouded by sorrow or care;
It is lighted alone by the presence of God,
Whose throne and temple are there;
Its crystaline streams with a murmurous flow
Meander through valleys of green,
And its mountains of jasper are bright in the glow
Of a splendor no man hath seen.

And throngs of glad singers with jubilant breath
Make the air with their melodies rife;
And one known on earth as the angel of death,
Shines here as an angel of life!
And infinite tenderness beams from his eyes,
On his brow is a heavenly calm.
And his voice, as it thrills through the depth of the skies,
Is as sweet as a seraphim's psalm.

Through the musical groves of this beautiful land
Walk the souls which were faithful in this,
And their pure white foreheads by zephyrs are fanned
That evermore murmer of bliss;
They taste the rich fraitage that hangs from the trees,
And breathe the sweet odor of flowers
More fragrant than ever were kissed by the breeze
In Araby's loveliest bowers.

Of prophets, whose words were a spirit of flame
Blazing out o'er the darkness of time,
And martyrs, whose courrage no torture could tame,
Nor turn from their purpose sublime;
And saints, and confessors, a numberless throng,
Who were loyal to truth and to right,
And left as they walked through the darkness of wrong
Their foot-prints encircled with light.

And the dear little children who went to their rest
Ere their lives had been sullied by sin,
While the angel of morning still tarried a guest
The spirits pure temple within—
All are there, all are there—in the beautiful land,
The land by the spoiler untrod,
And their radiant foreheads by breezes are fanned
That blow from the gardens of God.

My soul hath looked in through the gateway of dreams
On the city all paved with pure gold,
And heard the sweet flow of its murmurous streams.
As through the green valleys they rolled:
And though it still waits on this desolate strand,
A pilgrim and stranger on earth:
Yet it knew in that glimpse of the beautiful land
That it gazed on the home of its birth.

A TEMPERANCE DISCOURSE IN REPLY TO A CORRESPONDENT.

BY JOSH BILLINGS.

BERKSHIRE: Who it waz that invented alcohol, I am unable tew tell without lieing; but it would hav bin a fust class blessing for the rest of us, if he and the licker had both uv them bin spilt on the ground and never bin sopped up since.

The devil himself with all hiz genius for a ten strike, could not have rolled a ball more serviceable for hiz bizness on earth; and more certain to quarter on the head pin, and sweep the alley every time. Rum is the devil's stool pigeon, hiz right bower, hiz high, low, Jack and the game.

A great menny, with dyspeptic morals, argy that licker is indispensible for manufacturing purposes, and also for mekanical uses, and they hold that yu kouldnt raise a barn that would stand, without enny good old Jamaka rum, and sum say that pudding sass, without enny spirits, iz no healthier than common goose grease.

But awl ov these are furnished free ov cost, by the devil himself, and enny man who advances them iz telling (without knowing it perhaps) lies that will weigh, at a ruff estimate, at least a pound apiece. But mi objeckt in thezе fu preliminus remarks, iz tew git a good chance to tell what I know about 'Jersey lightning,' (one of alcohol's imps) as a manufacktring and metaphysical agent.

Jersey lightning iz cider brandy, three hour's old, still born, and quicker than flash. This juice iz drunk raw by all the old sports, and makes a premonitory and hissing noise az it winds down the throt, like an old she goose setting on eggs, or a hot iron stuck in ice water. Three horns a day ov this licker will tan a man's interior in six months, so that he kan swallow a live, six-footed krab, feet fust, and not waste a wink.

It don't fat a man (cider brandy don't) like whiskee duz, but puckers him up like fried potatoze. If a man kan survive the fust three years of Jersey lightning, he iz safe then for the next 75 years to come, and keeps looking every day more like a three year old red pepper-pod, hotter and hotter. An old cider brandy drinker will steam, in a sudden shower ov rain, like a pile of stable manure, and his breath smells like the bunghole of a rum cask lately emptyed.

When Jersey lightning is fust born it tastes like biling turpentine and cayenne, half-and-half, and will raise a blood blister on a pair ov old kowhide brogans in 15 minutes, and applied externally, will cure the rumatism or kill the patient, I forget which. The fust born a man takes ov this licker will make him think he has swallowed a gaslight, and he will go out behind the barn and try to die, but kant. The eyes of an old ciderbrandist look like deep gashes kut in a ripe tomato, his noze iz the complexion ov a half biled lobster and, and the grizzle in his gullet sticks out like an elbo in a tin leader.

The more villainous the drink the more inveterate are those who drink it. I kant tell you whether cider brandy will shorten an old suckers days or not, for they generally outlive all the rest of the nabobs, and die just as soon as the old tavern stand changes hands and is opened on temperance principles. One bottle ov sarsaparilla or ginger pop iz az fatle tew these old fellers az a rifle ball iz tew a bed bugg.

I would do almost enything but murder tew save a young man from Jersey lightning, but trieing tew save an old one is like trieing tew put the fire out ov a holler leg; yu might as well let it burn up, for the ashes is worth more than the logg.

A FUNNY BIRD.

A recent traveler in Australia thus describes the performances of a tame cockatoo, known by its pet name of 'the Doctor:'

It pretended to have a violent toothache, and nursed its beak in its claw, rocking itself backward and forward as if in the greatest agony, and in answer to all the remedies which were proposed, croaking out, 'Oh, it ain't a bit of good!' and finally sidling up to the edge of it perch, and saying in a hoarse, but confidential whisper, 'Give us a drop of whisky, do.'

It would also pretend to sew, holding a little piece of cloth underneath the claw which rested on the perch, and going through the motions with the other, getting into difficulties with its thread, and finally setting a loud song in praise of sewing machines, just as if it were an advertisement.

The 'Doctor's' best performace is when he imitates a hawk. He reserves this fine piece of acting until his mistress is feeding her poultry; then, when all the hens and chickens, turkeys, and pigeons are in quiet enjoyment of their breakfast or supper, the peculiar shrill cry of a hawk is heard overhead, and the 'Doctor' is seen circling in the air, uttering a scream occasionally. The fowls never find out that it is a hoax, but run to shelter, cackling in the greatest alarm—hens clucking loudly for their chicks, turkeys crouching under the bushes, the pigeons taking refuge in their house. As soon as the ground is quite clear, cocky changes his wild note for peals of laughter from a high tree, and, finally alighting on the top of a hen coop filled with trembling chickens, remarks, in a suffocated voice, 'You'll be the death of me!'

THE GREAT UTAH MYSTERY.

[From the Utah Reporter, June 10.]

To-day we give the efacts as we have them, relative to the discovery of a subterranean outlet to Great Salt Lake. This inland sea the, briniest of all the waters of the world, and which former investigations pronounced as being kept at its level by the action of evaporation, has itself solved the mystery. The mountains, the lofty hills and all the lovely islands have for countless ages found a mirror for their majesty in the bosom of our lake, and its burnished face has been kept bright with the crystal supplies of a thousand streams from out the roaring canyons, lefts and snowy reservoirs of the Rocky chain. The eye of science has scanned with care the agencies which, it was supposed, held the wonder in its place, and the Humboldts and Sillimans of two continents saw no escapement for the 'Hanging Sea' save through the aerial pathways of the sun. Many years ago the Bureau of Topography sought to explain the permanent equilibrium of Great Salt Lake, whose thirst absorbs a greater supply of fresh water than the Michigan or Erie, but still the reduction was the same. Every trial said its shores were saved from a flood by the evaporating power. This is no longer a theory, and never was correct.

One night last week the schooner Pioneer, Capt. Hannah, on her voyage from Corinne to Stockton, when at a point in the lake between Fremont and Kimball Islands, nearly opposite this city, came suddenly in contact with something which the Captain thought more solid than water, believing his vessel to have stranded upon rocks. Instead of this, however, the men on the pioneer discovered that she was in the whirl of a maelstrom, for the vessel immediately revolved as if in a circular current; and the motion was so rapid in the revolutions made that the men could scarce stand at their duties.

Capt. Hannah being an old sailor, and understanding the danger he was in, at once added sail, and a brisk wind blowing at the time, the craft was, after about half an hour's detention, borne beyond the vortex of the eddy. He informs Gen. Connor, the owner of the schooner, and from whom we get these interesting facts, that while in the trough of the ugly hole the deck was far lower than the water outside the whirlpool, and that he owes the safety of vessel and men to the stiff breeze which fortunately sprang up at the time. The noise of the waters as they descended, denoted that some mighty airless cavity below gave strength to the suction, and the surging, frothy foam above was like the boiling of a mighty cauldron. That this is the safety valve of Great Salt Lake there seems to be no doubt, and we can reasonably assume that similar openings are numerous on the bottom. The steamer Kate Connor will be ready in two or three days to go on the lake, when the General, accompanied by a party of gentlemen from this city, will go out and examine the maelstrom.

The men of the college and university will again be called to make scientific survey of this great discovery, and geologist and chemist will, in the waters of the Utah Mediterranean, find many valuable lessons to impart to student and graduate. How marvelous are nature's works around us.

WHY DO CHILDREN DIE?

In answer to this question, the Medical Recorder holds the following language: "The reason why children die is because they are not taken care of. From the day of birth they are stuffed with water, suffocated in hot rooms and steamed in bed clothes. So much for indoor. When permitted to draw a breath of pure air once a week in summer, and once or twice during the cooler months, only the nose is permitted to peer into daylight. A little later they are sent out with no clothes on the parts of the body which most need protection. Bare legs, bare arms, bare necks, girted middles, with an inverted umbrella to collect the air and chill the other parts of the body. A stout, strong man goes out in a cold day with gloves and overcoat, woolen stockings and thick double soled boots, with cork between and rubbers over. The same day a child three years old, an infant of flesh and blood, and bone and constitution, goes out with hose as thin as paper, cotton socks, legs uncovered to the knees, neck bare, an exposure which would disable the nurse, kill the mother outright, and make the father an invalid for weeks. And why? To harden them to a mode of dress which they are never expected to practice. To accustom them to exposure which a dozen years later would be considered downright foolery. To rear children thus for the slaughter pen, and then lay it to the Lord, is too bad. We don't think the Almighty had any hand in it."

VALUE OF A FILE OF PAPERS.

A New York correspondent of the Rochester Democrat says on this subject:

"A complete file of the London Times is quoted at £3,000 sterling, and probably would bring double that price if demanded. This is a small sum compared with American prices. A complete file of any important journal bears a value which is hardly computed in money. Thirty-three years ago the Herald started. Had any one laid by a few copies of each issue, he would have had a rich reward. A complete file of that paper with interest at a compound rate would cost $800. It would now readily bring $5,000. The sum of $2,500 was recently voted by the common council of this city for the purpose of purchasing a set which commenced with 1842, and which of course was deficient the first seven volumes. The librarian of the city hall informed me that they were frequently consulted, and also said they could be sold at a large advance. The only complete file of the Herald of which I have any knowledge are those in Bennett's hands, and these are kept from the public eye. He is not willing to expose the character of his paper. Another complete file was in the hands of Persee & Brooks, who supplied him with material, but this was lost when their warehouse was burned several years ago. There are statements in the early issues of the Herald which can throw light upon important questions about to be brought into court. Lawyers have gone to the Herald establishment and solicited the privilege of a reference, but the reply is unchanged in character. One man foolishly spoke of legal compulsion, and was politely told to try it. The only way for those who wish to possess such archives is to subscribe for the papers, and then keep the file unbroken until time gives it a value."

THE SHREW.

The woman who rails and fumes at every trifling annoyance that occurs, till she makes the whole house miserable, does not know that she is committing a sin. She only thinks herself wronged by circumstances or people, and that she is exercising a righteous indignation, and making a justifiable protest against the same. She does not dream that she is digging the grave of her own happiness; but after she has worried herself to the very verge of madness, laments her hard case at not being loved—she who would do as much for them! So she would in all probability; for in nine cases out of ten, it is her temper and not her heart, that is the fault; and we frequently find the uncomfortable shrew capable of the most heroic virtue when the pinch comes. Yet, as pinches are only occasional, and the ordinary monotonous highway the place we mostly walk in, the shrew's heroic virtues are brought into play but rarely, while shrewishness is a thing of every day, and her power and habit of making people unhappy one that has no ending save in death!

$1,000 Reward is offered by the proprietor of Dr. Pierce's Alt. Ext. or Golden Medical Discovery for a medicine that will equal it in the cure of all diseases for which it is recommended. For bronchitis, severe coughs, and the early stages of consumption, it has astonished the medical faculty by its wonderful cures, and hundreds of the best physicians pronounce it the greatest medical discovery of the age. While it cures the severest coughs, it strengthens and purifies the blood. As a cure for pimples on the face, eruptions, blotches, scrofulous diseases, and liver complaint or biliousness, it has never been equaled. Sold by druggists. The genuine has Dr. Pierce's private government revenue stamp on the outside wrapper.

NEWSPAPERARCHIVE®

The Independent.

Two Dollars a year, in advance.

Massillon, Wednesday, July 6.

Mr. Ambler, representative to congress from this district, has favored us with a copy of his speech concerning the belligerent rights of Cuba.

Readers of the daily papers have long been familiar with the fact that a sort of internal war has for many months been waging in Cuba, between the natives of that island and the Spanish authorities, who assume to have legal control in governing the people. A very large portion of the American people sympathize very decidedly with the Cubans in their struggles for independence from the control of a dead and almost rotten monarchy, and ask that our government acknowledge the belligerent rights of that island. This idea has been pressed upon congress in various ways, and so important has it grown that the president, a short time ago, deemed it his duty to send a message to congress in which he gave his reasons for withholding all interference in behalf of either party in the contest. Gen. Banks, of Massachusetts, who warmly favors the Cubans, sharply criticised the positions taken by the president, and it looks as if nearly all American people are in sympathy with the sentiments he (Mr. Banks) utters. Mr. Ambler sustains the president, not because he (Mr. A.) don't sympathise in sentiment with the mass of the people in the Cubans' behalf, but in consequence of the precedents and usages of the government heretofore in similar cases,—which has prevented entangling alliances with warring parties. To adopt the course proposed by Gen. Banks, it is contended, would be to come into collision with the Spanish government, not a very formidable idea so far as that power is concerned, but the precedent might lead to difficulties with other and more powerful nations. Perhaps this is the most politic course to pursue, but we all certainly want to see Cuba released from the bondage of a foreign power.

It is a source of sincere gratification to every lover of his country that the public debt is slowly but surely melting away under the economical managment of the administration. Since the president, Gen. Grant, has had control of national affairs the debt has diminished more than $138,000,000. In less than twenty years this gigantic debt, which at first amounted to thousands of millions, will be paid, if its liquidation is continued as it has commenced, which will be sorrowful news to the advocates of dishonesty and repudiation.

A terrible fire took place on the 25th ult., at Pittsburg, occasioned by the lightning which struck an oil establishment, setting it on fire, and the result was that something like half a million dollars worth of property was consumed before the flames were arrested. Vast quantities of oil, expensive buildings, machinery and other property were reduced to smoke and ashes.

Boston also suffered severely, not long since, from a hail storm, tornado and lightning. Several persons were killed by lightning, and vast amounts of property destroyed by the wind and hail. This season has been remarkable for electrical phenomena, for all over the country we read of casualties, often resulting in death and great loss of property from this cause. During the storm at Boston a young man, who was just about to get married, having on his wedding clothes, stepped near a window to see how the elements were raging, and in a moment was a corpse, caused by a flash of lightning.

The New York *Tribune*, and other leading papers, scout the idea that dogs are more liable to madness during warm weather than at any other season, not even in what are called dog days.

About these days we may confidently look out for steamboat explosions. Two boats, the R. E. Lee and the Natchez, had a race it is said, and ran 1000 miles in two days and a half. The first named vessel was ahead about an hour. Hundreds of thousands of dollars were bet on the result at St. Louis. The next news will very probably be steamboat explosion or burned, and perhaps fifty or a hundred lives lost.

Since the abolition of slavery and the adoption of the fifteenth amendment, which makes all men properly qualified voters, celebrating the national anniversary has a significance and consistency never before realized. When our orators on last Monday proclaimed this nation the asylum of the oppressed of all nations, they were not guilty of that gasconade and falsehood once so prevelent among the spread eagle and bifaluin deliverances which resounded all over the land years ago, when at the same time millions of slaves were not permitted to call their souls their own. The eloquent anathemas of the Declaration of Independence against oppressions practiced by the mother country, which were read with an unction becoming sincerity are now living realities as against the deeper tyranny of American slavery. Even with these great strides of political progression we have not yet reached the goal of advanced republicanism until all the women are voters, and have an active voice in choosing our law makers and executors. From present indications not many more national anniversaries will pass away until the sixteenth amendment will be a part of the law of the land.

Congress will adjourn on the 15th inst. no preventing providence.

F. R. Myers, the efficient general ticket agent for the Pittsburg and Chicago railway, has favored us with passes on that and the Cleveland and Pittsburg road, for which he has our thanks.

Mrs. Abraham offers a house and lot for sale, located on Tremont street.

Since the fourth everything seems to assume its wonted quiet—even the fire crackers have ceased their din.

Some alterations have recently been made in the railroad time tables, all of which are changed to latest date.

Dr. T. J. Reed has been improving the buildings on his premises, and erecting new ones.

Summer shawls at cost to close out at Ricks'.

Edwin Jarvis, Esq., collector of the port for this place, on the Ohio canal, has favored us with the following statistics:

Articles arrived on the Ohio Canal, taken at the Massillon office for the 25 first days of June, 1870:

Feet of lumber	1,080,457
Shingles	560,750
Feet lath	155,500
Feet posts	20
Barrels fish	141½
" whisky	5½
" salt	665
" white lime	135
" water lime	10
" Oil	23
" vinegar	9
" flour	200
Pounds pig iron	129,080
" Castings	10,950
" marble unwrought	4,570
" sugar	1,906
" merchandize	19,692
" gypsum ground	11,550
" staves and heading	130,000
" grindstones	2,334
" sundries	1,290
" empty barrels	4, 91
" stone ware	2,?00
" furniture	200
" scrap iron	3,000
" ship stuff	4,000
" slate roofing	176,000

Amounting in the aggregate, beside articles by number and by feet, to 393 93-2000 tuns of 2000 pounds each.

Articles cleared from the Massillon office, on the Ohio canal, for the 25 first days of June, 1870:

Bushels wheat	37,665
" oats	27,066
" car corn	1,636
" shelled corn	768
" rye	82
Barrels flour	245
" salt	650
" white line	20
" oil	2
" vinegar	17
Pounds agricultural implements	27,100
" castings	10,000
" pig iron	284,480
" grind-stone (of Mass. quarry)	113,417
" merchandize	1,163

" coal	120,000

STARK CO. MEDICAL SOCIETY.

Pursuant to adjournment the Stark County Medical Society met at Louisville, O., on the 30th ult., Dr. J. E. Dougherty in the chair.

The report of the committee on Ethics was postponed till next meeting, because of the absence of Dr. Johnson, of Alliance, O., chairman of the committee.

On motion, resolutions were offered expressive of regret for the death of, and respect for, the memory of Sir J. Y. Simpson, of Edinburg, Scotland, were read and approved.

On motion, it was

Resolved, That the next quarterly meeting of the society be held in Massillon, O.

Dr. L. Slusser was appointed to deliver an address, and Dr. McConkey, of Mapleton, to read an essay at next meeting.

The subject for discussion for next meeting is Water, as a hyjienic and therapeutic agent.

Dr Cook read an essay on Gynecology. Remarks on the subject were participated in by members of the society.

Dr. Philips was appointed to the place made vacant in committee on Ethics, by the departure of Dr. Cooper.

Subject for discussion (Alcohol) being next in order many of the members participated in the discussion.

On motion, adjourned to meet on Thursday, Sep. 29th, 1870, at Massillon.

J. E. DOUGHERTY,
D. R. Lyon, Sec. Pres.

The success of the lay delegation movement in the Methodist church is now assured the total vote of the Ministry standing—affirmative, 4,046; neg 1,535. This gives the measure 450 more than the requisite three fourths.

The fiscal statement of the government for the year ending June 30th shows the following to have been substantially the receipts, to wit:

Internal Revenue	$188,000,000
Customs	170,000,000
Other sources	30,000,000
Total	$388,000,000

The election in Illinois on Saturday last resulted in the adoption of the new constitution, including the several amendments submitted to separate vote, with the possible but not probable exception of minority representation in the legislature. A Chicago journal estimates the pecuniary saving to the state by this change in the fundamental law at something over five million dollars per annum.

Go to Ricks' and see those nice linens and Japanese cloth for ladies suits.

The fence of a graveyard in Pennsylvania bears an inscription in large, white letters: "Use Jones' bottled ale if you would keep out of here."

The severest storm that has visited northern Ohio for years passed over Mansfield on Tuesday night. One barn was struck by lightning and destroyed. Houses were unroofed and property generally destroyed.

The 'You Bet' paper collar at Ricks' the nicest collar out.

The house occupied by Jeff. Davis while president of the confederacy, in Richmond, has not yet been turned over to its owners.

There is a young lady in Boston so refined in language that she never uses the word 'blackguard,' but substitutes 'African sentinel.'

An old lady, who was discomposed by the introduction of gas, asked with much earnestnes, 'What's to become of the poor whales?'

A German wrote an obituary on the death of his wife, in which he said: 'If mine wife had lived until next Friday, she would have been dead shust two weeks. As the tree falls so must it stand."

The graduating class of the Iowa state university, instead of planting the usual class tree, have placed on the college grounds a bowlder weighing 6,600 pounds, with the class records cut thereon.

The Guilford Citizen says a joint snake was found near that place recently, which broke itself into a half dozen pieces on being touched by a stick. Each piece kept in motion, seeming disposed to keep near the head. Its head was finally killed, and the peices left to slosh around loose.

There is to be a new depot erected at Richmond, Ind., at a cost of one hundred and thirty thousand dollars.

Nebraska is the only state that was born with a gold spoon in its mouth, that is with four hundred miles of completed railroads. There preeminently railroads precede settlement instead of following in its train. The result must be that a million people will enter it much swifter than they did Wisconsin, as a locomotive moves faster than a lazy ox, and a car than a cart.

A San Franciscan, speaking of the orchestra in the Chinese theatre, says: "I tell you that you never heard anything like it; why, when the band strikes up, it sounds like ten thousand wash bilers tumblin' off a five story buildin' on to a brick walk."

An enterprising American has startled all Italy by a proposition to lease Mount Vesuvius. He says he will make roads and lay out pleasure grounds upon its rocky sides, build hotels and set up soda fountains on its summit, and help visitors up and down by machinery. To pay him for this outlay, and amass a fortune besides, he will charge a small admission fee from all who wish to step up and see the show.

New Hampshire takes the premium for early marriages. The census there shows that a woman aged thirty has a son twenty-eight years old.

Boston shows its superior civilization in having free baths, fifteen in all, five of which are devoted to women. During the first year, 1866, 433,690 persons used the baths. Last year the number reached 1,024,074, 150,000 of whom were women.

Road Notice.

Notice is hereby given that petitions will be presented to the Board of Commissioners of the county of Stark and state of Ohio at their next regular meeting, commencing on the first Monday in September next, A. D. 1870, praying for the laying out of a county road in said county, commencing on the township line between the townships of Perry and Tuscarawas and in the center, as near as may be, of the road leading from the city of Massillon to Millersburgh, and running thence north on said township line until it shall intersect the north Wooster road leading from said city of Massillon to the city of Wooster.

A Petitioner.

Robert H. Folger, Att'y for Petitioner.

The Great Medical Discovery!

Dr. WALKER'S CALIFORNIA VINEGAR BITTERS.

More than 500,000 persons bear testimony to their curative effects.

For Female Complaints, whether in old or young, married or single, at the dawn of womanhood or the turn of life, these tonic bitters have no equal. Send for a circular.

What are They?

They are a gentle purgative as well as a tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving congestion or inflamation of the liver, and all the Visceral Organs.

THEY ARE NOT A

VILE FANCY DRINK,

Made of poor rum, whisky, proof spirits, and refuse liquor, doctored, spiced, and sweetened to please the taste, called tonics, appetizers, restorers, &c., that lead the tipler on to drunkeness and ruin, but are a true medicine, made from the native roots and herbs of California, free from all alcoholic stimulant.

They are the great blood purifier, and life giving principle, a perfect renovater and invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these bitters according to directions, and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

For inflamatory and chronic rheumatism, and gout, dyspepsia, or indigestion, bilious, remittent, and intermittent fevers, disease of the blood, liver, kidneys and bladder, these bitters have been most successful. Such diseases are caused by vitiated blood, which is generally produced by derangement of the digestive organs.

Cleanse and vitiate blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when you find it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

Pin, tape, and other worms, lurking in the system of so many thousands, are effectually destroyed and removed.

In bilious, remittent and intermittent fevers, these bitters have no equal. For full directions read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

J. WALKER, Proprietor, 32 Commerce st New York. R. H. McDONALD & CO., Druggists and general agents, San Francisco and Sacramento, California, and 32 and 34 Commerce st., N. Y.

SOLD BY ALL DRUGGISTS.

THIS IS NO HUMBUG!—By sending 25 cents, with age, height, color of eyes and hair, you will receive, by return mail, a correct picture of your future husband or wife, with name and date of marriage. Address W. Fox, P. P. Drawer No. 24, Fultonville, N. Y.

HINKLEY KNITTING MACHINE

For Family use—simple, cheap, reliable, knits everything. Agents wanted. Circular and sample stocking free. Address Hinkley Knitting Machine Co., 162 West 4th st., Cincinnati, O. 353 3m

PLANTATION BITTERS

S. T.—1860—X.

This wonderful vegetable restorative is the sheet anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid, it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits. For sale by drug fists. 6m-349

Agents Wanted.—$10 dollars per day—by the American Knitting Machine Co., Boston, Mass., or St. Louis, Mo. 3m

Address T William & Co., publishers, South 7th street, Philadelphia.

DR. WHITTIER

Continues to treat all private diseases syphilis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhea or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office, or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

Hours 9 a. m to 8 p. m. Sundays 12 m, to 2 p. m. Office, No. 9 Wylie street, (near the court house,) Pittsburg, Pa. 365-1y

The Proprietor of this fine structure, Mr Crew, having made an assignment, the mortgagees and assignees have consented to put it up in a

GIFT ENTERPRISE,

For the benefit of his creditors, generally, who, outside of the mortgage holders, would meet with the entire loss of their claims, if the building should be put at forced sale. The rents of the building could be made pay better. The honesty of the transaction is endorsed by E. Teeter & Son, and Greiner, Steel & Co., bankers, Alliance, Ohio, which firms can be consulted in the matter by any one desiring further information. The money for the sale of tickets will be deposited with the above named bankers, at whose counters the ticket money will be refunded, provided anything should occur to prevent the distribution. If the tickets are not sold sooner, the drawing will take place

SEPTEMBER 10th 1870.

Address,
J. W. BARNABY, Sec'y and Treas., or
S. G. McKee, General Agent,
Alliance, Stark Co. O.

THE FOURTH.—Our people spent the day in sections, as there was no general observance in which all united. As elsewhere intimated a spontaneous band amused many by their eccentric appearance and very original music, early in the morning—for they roused up hosts of people by their clarion notes.

The Sunday school children of the M. E. church, to the number of 250 or more, started from their school room early in the day accompanied by their teachers and friends, every class carrying an expressive banner, and marched to a beautiful grove, just south of the old fair grounds, and there spent several hours in appropriate exercies. No doubt the little ones erjoyed themselves most agreeably. as the day was a most propitious one for out door pleasures; and they were accompanied by a most liberal commissary which prevented any suffering from want of food.

A canal boat filled with the children of our Catholic citizens went to Fulton and they, too, had a fine time, and it will be a day which many of them will long remember. It was better for them than burningcrackers and mingling with doubtful company as to morality. The teachings they then received were intended for their benefit.

The dry goods stores and manufacturing establishments were all closed and quiet, thus giving a very large portion of our population opportunity to spend the day as best suited them. General good order prevailed during the day, no accident or unusual excitement occurring to render its memory unpleasant. Some, however—and there always will be a portion of that class as long as facilities are afforded them—were not sober, but drunk just as if they could not realize the pleasures of the day unles they brutified themselves—indeed, made themselves more degraded than the animals of the lower grades. In such minds it seems that a public day and a big drunk are inseparably connected—an association abominable to every man of refinement and self respect.

Then another large section went out to the Mineral Springs, now in possession of Mr. Wm. P. Clay, where they spent much of the day in a manner most pleasurable to themselves. The Massillon Silver Band was on the stand and made the forest echo with their choice music. Mr. Clay has been improving the premises gradually, and making them more and more attractive every year. During the afternoon and evening dancing was the order of the day, and a goodly company of ladies and gentlemen participated in the exhilarating exercise. The warm day brought ice cream and the clear cold water of the celebrated spring into frequent use, and both institutions were liberally patronized.

It is probable that other parties passed the day in a manner suited to their tastes, but we have no particulars concerning them, so make no record.

In this vicinity a good many farmers put the day in actively in their meadows and grainfields, as considerable grass had been cut previous to the last rains, and the wheat is fully prepared for the reaper.

Louis Seebold, long an efficient man in the postoffice of this city, has left that place and his position is taken by Clarence Brown, who will assist his father, Mr. I. H. Brown, the present incumbent, in the duties of the office. Mr. Seebold was a universal favorite, as he had many years experience behind the boxes, and was familiar with all the duties required. Accommodating, quick and correct he seldom made mistakes, and seemed as if he was naturally qualified for so responsible a place. His successor, with a little experience, it is presumed, will soon render himself a most efficient aid in this indispensable branch of Uncle Sam's service; and we all know that Mr. I. H. Brown is every way qualified to fill the duties of postmaster.

A NEW AWNING.—A new awning has just been put up at Fred Sibila & Co's Clothing Store, on Main street, and at several other places in this city, by Mr. W. Mateer. It is ahead of anything of the kind we have ever seen, being protected from the weather when rolled up, and can be easily adjusted, rolled and unrolled. It works like a charm, and we advise all who are interested to examine this awning. 364-tf

The American Odd Fellow closes its 9th volume with the issue for the current month. This is the oldest and conceded to be the best Odd Fellow publication in existence. We notice in its attractive contents numerous interesting and instructive articles. Principal contributions: concluding chapters of the splendid original serial, Conscience Money, Letters from France and Germany; Scientific and Curious Facts, Lodge Benefits, Humors of the Day, History of Odd Fellowship; Dignity of Manual Labor, Ladies Olio, Youth's Department, The Rebekah Degree, Domestic Economy, Correspondence, Miscellany, Choice Poetry, etc. Published by John W. Orr, No. 96 Nassau st., New York. $1,25 per volume.

Lawns, grenadines, bereges and other dress fabrics adapted to the heated term at Estep's.

Silk wash flannel at Ricks' cheap.

We understand that the commencement exercises of the Beaver Seminary and Musical institute consisted of very choice vocal and instrumental music. The attendance this year has been large, and the school is in a prosperous condition. The musical department is in charge of Prof. A. Beuter, who is favorably known in this community as a successful teacher of music; there were some forty-five music pupils in attendance at the last session, the advantages in music are far superior to other schools there being two pianos and two organs in the building which are always kept in good practicing order. The principal, Rev. R. T. Taylor, spares no pains nor expense in securing the very best of teachers. For further particulars apply to Mr. A. Beuter for a complete catologue.

By a good many people it was understood that the cracker abomination was to be dispensed with now and hereafter, but on Monday it was unsafe for timid horses to be on certain streets in consequence of the din and smoke occasioned by these nuisances. Perhaps the custom is regarded as so well rooted as to be irremovable—if so, what is the use of making a law against the practice?

Parents, if you desire your children to secure a good practical and ornamental education send them to the Seminary and Institute, Beaver, Pa.

The white velvet cord at Estep's is in exquisite taste for ladies' and misses' sacques.

Mr. Higley is often receiving orders from a distance for his new and improved music stool, considerable numbers of which he is manufacturing. Root & Cady, of Chicago, had a few dozens sent them the other day, and this is but one out of numerous other orders with which Mr. H. is favored. He also disposes of a considerable number in this place.

Miss S. L. Magee, of Cincinnati female college, a lady of ten years experience in teaching, is preceptress of the Beaver Seminary and Institute, and although an earnest advocate of women's rights, she watches with the care of a mother over the young ladies placed under her charge.

Linen diapers, towelings, coatings and shirtings at Estep's.

A freak of nature was found the other day on an apple tree on the premises of Mr. W. King, C. E., residing on Main street. On a little branch was suspended an apple nearly two inches in diameter, while on the same branch, perhaps within a foot of this apple, was a cluster of healthy blossoms, apparently in their full vigor. Similar cases may have occurred elsewhere, but by all who have seen this it is regarded as a rather remarkable one.

The correspondent of the Pittsburg Commercial of July 1st, in speaking of the Annual Concert of the Seminary and Institute says: "We are glad to notice the names of Mendelssohn, Schulhoff, Raff, and others. We understand that the principal of the musical department intends to bring out works of a still higher merit in the future, and we should not be surprised to find the names of Mozart, Bethoven, Chopin, Thalberg, Liszt, &c., represented on the next years programme."

Estep has full lines of hosiery for ladies', misses' and gents' wear.

A RARE GRAPE VINE.—Hon. Joseph Thompson, of this place, has growing on his premises a grape vine of unusual size and vigor—at least it is so to those who have seen it. This is the third year since its planting, and it now has six branches all rising from one root, and each of these branches is at least twenty feet long, making without their laterals, which are numerous, one hundred and twenty feet of continuous vine. These six branches with their numerous vigorous offshoots, if stretched out would reach not less than three hundred feet. The entire vine is full of healthy growing fruis, and spreads over a frame work about fourteen feet each way, covering a surface of nearly two hundred square feet. Grape growers may be familiar with such phenomena, but they are not so to most people, and this is regarded by those who have seen it as a vine of unusual growth and promise.

Estep offers white granite crockery at the shortest possible margin.

Our friend Mr. Penoyer, a few days ago had a stalk of corn some six feet in length, and that is extraordinary for this season; but Mr. Clutz, the gunsmith, furnishes a stalk of eight feet and four inches in length including tassels, on which stalk were two ears of corn commencing to shoot. For a June corn stalk, which had probably not been sixty days planted this is extraordinary—an inch and two-thirds a day.

I. O. O. F.—At a regular meeting of Eureka Encampment, No. 24, held Friday evening, July 1st, the following Patriarchs were installed as officers for the ensuing term: H F. Oeler, C. P.; Jacob Linderman, S. W.; L. S. Hardy, H. P.; B. F. Cline, J. W.; D. Fahs, S.; N. S. Russell, T.

The following named persons are the officers elect of Sippo Lodge, No. 48, for the term beginning July 1st, 1870, and ending Jan. 1st, 1871: Julius Bracher, N. G.; James A. Hackett, V. G.; Chas. E. Taylor, R. S.; John B. Wert, P. S.; N. S. Russell, T.

STATE CAMP MEETING.—An earnest and vigorous call has been published in the Canton papers, signed by a number of prominent gentlemen, announcing that a state camp meeting will commence on Thursday, the 23d of August, on the fair grounds, which is to continue for ten days. Accommodations for living in tents will be prepared for such as wish to avail themselves of these conveniences, where good board can be had at reasonable rates during the time of the meeting. The usual religious exercises which are observed on such occasions will be conducted by a number of prominent preachers, perhaps most of them of the Methodist church. Invitation is extended to all who are partial to these means of religious instruction to be present. If the weather is pleasant no doubt there will be a large assembly.

Good standard cloth prints for 10 cents at Estep's.

Mr. J. L. Durgin is prepared to attend to all calls in his branch of mechanism, in repairing, watches, clocks and jewelry, and solicits a share of public patronage, at his place of business between H. Alterkruse's grocery and S. Loew's clothing store.

The Madam Foy corset at Ricks' is the best corset in the market—call and see it.

Martin Schafer has secured the agency of the Improved Singer Sewing Machine which is conceded to be the best sewing mchine in the market. He also keeps on hand and for sale needles for the Howe, Singer, Wheeler & Wilson, Grover & Baker, and Wilcox & Gibbs sewing machines, also, the best quality of machine oil, Erie street, North of Main, Massillon, O.

Real thread lace at Ricks'—a very nice assortment.

The fourth opened in this place somewhat musically. An independant band of long horns, grotesquely dressed, marched with banners, drums and cymbals, paraded thro' the principal streets and wakened the sleepers by their dulcet strains, almost as harmonious as the efforts of a regular callithumpian band. They were heralded by queer looking notices, which were posted up on Saturday night, in prominent places by liberal supplies of raw paste. The inevitable fire crackers were consumed by the handful which were set going by little chaps from three to six feet in hight, and from six to thirty years of age.

If you want to buy a nice bed spread go to Ricks'.

It was erroneously stated last week that Mr. Kittinger would carry on the wire weaving business. Mr. K. retains the patent for numerous improvements in the machinery for wire weavings and Messrs. Henry and William Taylor will manufacture this class of material in a building just now in course of erection near the depot.

Ricks' will close their stock of dress goods very cheap, now is the time to make good bargains.

Heavy showers of rain fell on last Friday, amounting to one inch in depth, which had a tendency to cool down the atmosphere, and reduce the mercury from up in the nineties down to sixty or seventy. On Sunday the clouds all passed away, since which time the weather for harvesting could not be better.

A few more pieces of that nice crash at Ricks'—3 yards for 25 cts.

The superintendant and other officers of the M. E. Sunday school take this method of returning their sincere thanks to the G. A. R.'s for the use of their flags on the fourth.

New potatoes are coming in more plenteously every day, and were sold last week for 62½ cents a bushel. The ruling price is one dollar.

COUNCIL PROCEEDINGS.

Regular session—Members all present. Minutes of previous meting read and approved.

Street commissioner's report submitted, showing the expenses for the week ending June 22d to be $52,86, cash received and labor performed $9.

Mr. Mong, chairman of the judiciary committee, submitted a new profile of the grade of Cherry st., and on motion of Mr. Conrad the judiciary committee was instructed to report an ordinance establishing the grade of Cherry st., in accordance with the profile.

On motion of Mr. Bollinger the grade of North street was included in the ordinance.

The street and alley committee recommended the improvement of Muskingum street.

The finance committee recommended the following persons to constitute a board of equalization—Messrs. Clement Russell, J. P. Burton, Geo. Harsh, Jas. H. Justus, Jno. G. Warwick, and Jno. E. McLain.

Mr. Ogden, from the special committee on city prison, submitted an estimate of a structure suitable for the city as follows:

Cost of foundation,	$250 00
" Brick and work,	1,000 00
" Carpenters and material,	800 00
" Slate roof,	175 00
" Tin work and painting,	80 00
Total.	$2,305 00

Tin roof $75 less than slate roof.

Report adopted and committee instructed to report a plan and specifications.

Chief engineer reported 600 feet of rubber hose unfit for fire purposes, and the city clerk was instructed to dispose of the same to the best advantage.

A petition from certain business houses on Erie street requesting the privilege to use the fire plugs for sprinkling the street, was indefinitely postponed.

Dr. E. Chidester tendered his resignation as a member of the board of health which was accepted, and on motion of Mr. Conrad James Bayliss, Esq., was appointed to fill the vacancy.

On motion of Mr. Conrad it was

Resolved, That the members of the council report at the next session of this body, a suitable person from their respective wards to serve as commissioners for the purpose of more effectually working out the road tax, said commissioners to be under the control of the city street commissioner, and the street and alley committee.

Adjourned.

DIED—At Athens, Tenn., June 22d, of cholera morbus, Mrs. SARAH C. wife of Mr. A. Burget, formerly of Navarre.

We are authorized to publish the name of CYRUS ZOLLARS, of Perry township, as candidate for county commissioner, subject to republican primary meetings.

Please announce the name of J. M. TRUBEY, of Sugar Creek township, as candidate for county commissioner, subject to decision by the primary elections.

Please announce the name of J. N. Q. RAMSEY as a candidate for nomination for auditor, subject to republican primary election and oblige MANY VOTERS.

We are authorized to announce the name of M. E. WILCOX, of Fulton as a candidate for recorder, subject to the action of the republican primary meetings.

We are requested to announce the name of J. A. AMBLER as candidate for re-nomination to congress, subject to the decision of primary meetings of the republican party.

We are authorized to announce the nam of JOSEPH BARNABY, of Alliance, as a candidate for nomination for county recorder, subject to the action of republican primary meetings.

The Independent,

Massillon, Ohio.

Is now Seven Years Old, and

"Still Lives."

Without boasting of being an organ of immense influence, we may with diffidence claim that the paper is not without usefulness in the right direction, ever contending for justice on all the living issues of the day. But its principal business has ever been to subserve the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as as we can come at it—and for such as are removing elsewhere we hope to make the INDEPENDENT a very welcome visitor.

HEALTH! BEAUTY!!

Strong, Pure and Rich Blood—Increase of Flesh and Weight—Clear Skin and Beautiful Complexion, SECURED to ALL.

RADWAY'S
Sarsaparillian Resolvent

HAS MADE THE MOST ASTONISHING CURES. SO QUICK, SO RAPID ARE THE CHANGES, THE BODY UNDERGOES UNDER THE INFLUENCE OF THIS TRULY WONDERFUL MEDICINE THAT

Every Day an Increase in Flesh and Weight is Seen and Felt.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal, in its many forms, Glandular disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands, and other parts of the system, Sore Eyes, Strumous discharges from the Ears, Eruptive diseases of the Eyes, Nose, Mouth, and the worst forms of Skin diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, loss of Sperm and all wastes of the life principle, are within the curative range of Radway's Sarsaparillian Resolvent, and a few days use will prove to any person using it for either of these forms of disease, its potent power to cure them.

Not only does the **Sarsaparillian Resolvent** excel all known remedial agents, in the cure of Chronic, Scrofulous Constitutional, Skin and Syphiloid diseases, but it is the only positive remedy for **Kidney, Bladder Urinary, and Womb diseases, Gravel, Diabetes Dropsy, Stoppage of Water, Incontinence of Urine, Bright's disease, Albuminuria, and in all cases where there are Brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid dark, bilious appearance, and white bone dust deposits, and where there is a pricking, burning sensation when passing water, and pain in the Small of the Back, and along the Loins. In all these conditions Radway's Sarsaparillian Resolvent aided by the application of Radway's Ready Relief to the spine and Small of the Back, and the Bowels regulated with one or two of Radway's Regulating Pills per day, will soon make a complete cure. In a few days, the patient will be enabled to hold and discharge his water naturally without pain, and the Urine will be restored to its natural clear, and amber or sherry color.**

THE WASTES OF THE BODY

are supplied with new, healthy, and vigorous blood, that furnishes sound structure. Hence all suffering from Weakening Discharges, either MALE or FEMALE, of the Womb, Uterus, or other organs, whether Leucorrhea, Sperm, or Eruptive discharges, of every kind, or from violence of "Self-abuse," from the Genital Glands, or Venereal discharges, or ulcers or sores, through the reparative process of RADWAY'S SARSAPARILLIAN, are arrested, and the ruptured organs healed.

THE TRUE THEORY OF CURE.

RADWAY'S SARSAPARILLIAN RESOLVENT supplies the system, through the blood, urine, sweat, and structure-making constituents with Tissue making, Flesh making, Heat or Caloric and Fat making elements. All of constituents are *nourishing, purifying, and strengthening. It Repairs, Heals, Restores, and drives out of the body* the products of Decay and Corruption. CONSUMPTION, WHITE SWELLING, DROPSY, SYPHILIS, CANCERS, TUMORS, &c., are all of a scrofulous diathesis, and as such, are within the curative range of the SARSAPARILLIAN RESOLVENT:

1. That Scrofula, by whatever name designated, is the result of deposits from the blood, induced or caused by Chronic inflammation. That those deposits take place when the blood *is poor, weak, watery*, and incapable of holding in solution its proper constituents, or from the presence of some virus or poison in the blood as Mercury, Calomel, Corrosive Sublimate, which is the Corrosive [illegible] of Mercury or other agents, even in minute [illegible] which enter [illegible] in the common advertised Sus[illegible], NOT ABSORBED OR CHANGED FROM THEIR NATURAL CONDITION.

2. That unless the [illegible] or nutriments are greater than the wastes, that decomposition and decay will supervene and the powers of life become exhausted.

3. That the dying body cannot be sustained on any treatment of medication that exhausts the system, or fails to nourish the blood, the only medium through which the *vital* forces are preserved, and on which the growth of the body depends.

4. That **Radway's Sarsaparillian Resolvent** supplies a want never before possessed or known to exist in medicine, that this new found principle in Chemical science, which has been brought to such a perfect system of cure is exhibited as follows:

1. Its great power in assimilating the food in its first stage of distillation in the process of digestion, as chyme and chyle with the nourishing elements of blood, seperating from these liquids refuse and inert qualities before they are taken up by the lacteals and are formed into blood. Here we see that by its wonderful power it charges the system with the very essence or principle that forms the vital powers of the body, and its chemical action on the blood in its primitive and complete condition, separates every atom of refuse material or element, out of which the virus of disease is formed.

2. That, the blood thus prepared, and supplied with these nourishing properties becomes strong, rich and healthy, and holds in solution its proper constituents, through the **Sarsaparillian Resolvent, and** repairs the wastes of the body with sound and healthy structures. Such is the wonderful power the **Sarsaparillian Resolvent** exerts on the blood and juices of the system, that no virulent humors or poisons will exist by which deposits are made.

3. The rapidity which the **Sarsaparillian** enters the circulation, and communicates its curative powers through the Blood, Sweat, Urine, and other fluids, secures the constituent secretions of each respective organ, establishing functional harmony throughout the system; through its action and power over the Secretions, the Liver secretes its natural or proper allotment of bile; the Skin, sweat, the Kidneys urea; and the Lungs carbon; so that this wonderful medicine not only establishes health in the sick body, but preserves the system in health.

As we have shown the principle on which disease is formed, as well as the only sensible theory of cure, we claim that the range of cure of the **Sarsaparillian Resolvent** is unlimited, and that every disease that is of a Chronic, Scrofulous or Organic Diathesis, is, properly within its special range.

THE GREAT SECRET OF CURE

in this Medicine consists in the selection of ingredients containing curative and nourishing properties that supply the blood and general system with such constituents which, in a condition of disease and depravity, it is deficient of, together with the combination of the several ingredients that form the SARSAPARILLIAN RESOLVENT.

If the constituent of Oxygen was exhausted from the atmospheric air, life would become extinct. So, when the blood becomes exhausted of its vital constituents, it deposits its tubercles and diseased humors in the body, and the elements of decay and decomposition supervene. **Radway's Sarsaparillian Resolvent** is to the blood and general system what OXYGEN is to the atmospheric air; it supplies the life principle, and enables the blood to hold in solution all its natural constituents.

DAILY CHANGES

take place, for as the Sarsaparillian increases the strength and purity of the blood, all deposits are diminished, and where there are tubercles formed in the lungs, the further deposits are arrested, and those that are established or forming dislodged, expelled, exhausted, or the portion of the diseased lung cicatrized, and the consumptive, scrofulous subject receives good, if not sound, health.

BLIND LADY CURED.

Gravel, Dyspepsia, Sore Legs, Bleeding from the Lungs, Cured.

Mr. GEORGE MORTIMER, a commercial traveller, in Canada West, writes us, under date of April 17, 1869, from Woodstock:

"The SARSAPARILLIAN RESOLVENT is in great demand, and working wonders. Mr. HOAG, of Stratfordsville, merchant, told me of a case where a woman WAS BLIND, but, by the use of the SARSAPARILLIAN RESOLVENT, can now see to read. She would give a certificate, but does not wish to be bothered with people writing. Hundreds call to see her. The cure is regarded as wonderful.

"Messrs. WHITE & SCOTT, principal druggists here, inform me of a person of note—high social standing—who for years was afflicted with DYSPEPSIA and GRAVEL, who has been entirely cured by RADWAY'S SARSAPARILLIAN RESOLVENT."

Mr. HOAG reports another case of Chronic Sore Leg, that resisted all other advertised medicines, cured by a few bottles of SARSAPARILLIAN RESOLVENT.

"Mr. JONATHAN FREELAND, of Widder Station, cured, by one bottle, of Bleeding from the Lungs, Night Sweats, Threatened Consumption.

"In every town I visit I hear of wonderful cures by the SARSAPARILLIAN RESOLVENT. For every kind of Humor, Sore, Skin Eruption, and all weakening discharges, the people use it, and become cured; so with Fits, Scrofula, White Swelling, Sore Heads and Eyes, Nose and Mouth, all kinds of Sores, this wonderful remedy acts so powerfully on the blood that all who take it become strong, sound, and healthy.

"GEO. G. MORTIMER,
"Commercial Traveller."

RADWAY'S SARSAPARILLIAN RESOLVENT is sold at $1 per Bottle, or 6 Bottles for $5, by all Druggists and Medicine Dealers, and at DR. RADWAY'S Medicine Warehouse, 87 Maiden Lane, New York City.

B. A. FAHNESTOCK'S
VERMIFUGE.

It is now over forty years since this medicine was offered as a remedy for Worms, and from that time its reputation has steadily increased until at the present day it is almost universally acknowledged throughout nearly all parts of the world to be the *sovereign remedy*. Worm Confections made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country; but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily. *Children* often look *pale* and *sickly* from no other cause than *worms*, and *spasms* are most frequently the result of these hidden sappers and miners.

When they are irritable and feverish, sometimes craving food and eating ravenously, again refusing wholesome diet, tossing restlessly in sleep, moaning and grinding the teeth, then be assured these symptoms are indications of worms.

Uneasiness and pain in the abdomen, with swelling and hardness, are generally attendant upon the presence of these hidden sappers and miners.

A gradual wasting away or emaciation of the flesh is one of the most common attendants upon worms. They absorb the animal juices, and destroy the nourishment imparted to the stomach by wholesome diet, thereby occasioning a variable appetite and a strong desire for indigestible food.

The stomach has, undoubtedly, a very great sympathy with other parts of the body. This is the case with respect to the irritation produced by worms, especially those existing in the stomach itself. They give rise to many other diseases, and patients often suffer incredibly without being aware of the cause.

Many a helpless child has been laid in the grave, when the disease which caused its death has been entirely misunderstood, and when worms have really been the cause. It has been proved beyond cavil that worms exist in the human system from earliest infancy, therefore parents—especially *mothers*, who are more constantly with their children, cannot be too observing of the *first symptoms of worms*, for so sure y as they exist, can they be *safely* and *speedily* removed from the *most delicate infant*, by the timely use of B. A. Fahnestock's Vermifuge.

Physicians do not hesitate to recommend it and use it in their practice, and many of the most eminent of the profession, in all parts of the country, testify to its uniform success. In fact, it **never fails**. It has [illegible] as a [illegible] not suspecting the cause of the illness, [illegible] of worms were discharged [illegible].

Great caution must be used by every purchaser, to be his own judge in one respect, and to examine every bottle he buys of it. The simple name of Fahnestock is not sufficient. He must look closely and carefully to see that the initials are **B. A.** FAHNESTOCK, and be satisfied with nothing else.

THE LIVING MACHINE.

Injure the main spring of a watch and every portion of the works becomes disordered. The human stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs, and controls, to a certain extent, the whole living machine. The comparison may be carried further: for as the weakness or other imperfections of the main spring is indicated on the face of the timepiece, is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded, the eyes are deficient in lustre and intelligence, and there is a worn, anxious expression in the whole countenance which tell as plainly as written words could do, that the great nourishing organ whose office it is to minister to the wants of the body, and to sustain and renew all its parts, is not performing its duty. It requires renovating, renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be the one thing needful. The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the resources of the pharmacopœia have been exhausted, without, at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful stomachic effects a perfect and permanent cure. In all cases of dyspepsia the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular distinctiveness, regulating and reinvigorating every secretive and assimilating organ on which bodily and mental health depend.
367-4w

DYSPEPSIA.

THE

Medical Properties Possessed by

BELTZHOOVER'S

Dyspeptic Bitters

Are fully attested by the certificates of well known gentlemen who have tested their virtues. Dyspepsia, Liver Complaint, Ague, General debility, and similar diseases are totally eradicated from the system by their use. while as a blood purifier and appetizer, they are unapproachable.

Doctor S. Beltzhoover, the sole proprietor of these bitters, are manufacturing them extensively at their establishment, No. 77 Third avenue, Pittsburgh, and are prepared to fill all orders that may be sent to them.

At this season of the year the human system is generally in a debilitated condition and a tonic is necessary for the presevation of health. The Dyspeptic bitters are strongly recommended for their tonical virtues, and many persons are deriving great benefit from their use. These bitters are the best in the market, and are being generally adopted by our citizens.

And for sale at wholesale by Harris & Ewing, Druggists, No. 341, Liberty street Pittsburgh, Pa.

For sale at all Drug Houses and Grocery Stores. 348-4y

HALL'S

VEGETABLE SICILIAN

HAIR RENEWER

RESTORES GRAY HAIR TO ITS ORIGINAL COLOR, PROMOTES ITS GROWTH! AND IS A SPLENDID DRESSING. TRY ONE BOTTLE AND THICKEN UP THE THIN LOCKS!

Is the only perfected and scientifically prepared preparation of its kind ever offered to the public, and has no competitor in *merit*. By its use GRAY HAIR is soon restored to its original youthful color and brilliancy, which is so much admired by all. Persons whose hair is thin or falling out will, by the use of our Renewer, soon see its good effects, as, by its *tonic* and stimulating properties the hair glands will be incited and the hair grow thick and strong again. In cases of *Baldness* it will create a new growth unless the follicles are destroyed. It is cooling, and allays all itching and irritation of the scalp. It does not stain the skin as do dyes, but makes the scalp white and clean. As a DRESSING it is the best and most economical preparation in the world, as its effects last so much longer. Send for our Treatise on the hair, free to all, by mail.

Sold by all Druggists and Dealers in Medicine.

Price one Dollar Per Bottle.

BIG SERMONS.

We have heard of sugar-sticks—not such as sweetness-loving children nibble, and nibble with exquisite delight—but sermons, such as are reserved to be rolled as a 'sweet morsel under the tongue' on special occasions. A Congregationist paper commenting on the subject of preaching 'great sermons' at large religious assemblies, touches up the matter thus:

It is telling no tales out of school to say that ministers often have a park of superior artillery, kept for great occasions, of a range and bore far exceeding that usually employed. These parade sermons have been got up at the expense of whatever the man knew. We have heard men in the innocence of their hearts, talking the matter over:

'What did A. give—his Dew sermon?'

'No; his 'Wild Boar of the Forest.' '

'Is S. going to preach?'

'Yes; in the morning.'

'What has he got?'

'His biggest thing is his 'Cherub.' You ought to hear that—its splendid. There's another one about as good—it's his 'Fishhook Sermon.' '

Thus one has his 'Abraham,' another his great 'Judas' sermon; another one is best on the 'Destruction of Jerusalem,' while a fourth is never so fine as on the 'Last Judgment.' Forty or fifty clergymen preaching great sermons in our city churches for two or three Sundays are enough to create a whole year's backsliding.

DRINKING HEALTHS.

A correspondent speaking of the absurd custom of drinking healths, says with a good deal of force:

How in the name of common sense and reason do I show an affection and and regard for my friend by pouring into my own stomach that which oppresses and distresses nature, and which nature does not want? Or what sense is there in my drinking his health while I am destroying my own? Drinking his health! Why, the very words are silly upon the face of them, if a man will but stop to consider their meaning. How can I possibly drink another man's health? I may wish his health, or I may pray for his health, but that has no rational connection with my drinking. I might as well dance his health, or whistle his health, for any real connection between the means and the end.

ONLY THE TRUTH

The following from the New York Ledger is nothing but the truth and the sooner it is accepted as such by the young men of the country, the better for them and the country:

"Many young men have fathers that are rich, and the consequence is, that these young men have no ambition, and no particular prospect in life. They scorn a trade! They are too well born for a trade! A man that is too well born for a trade is very well born for a gallows! If your boy is fitted to work in metals, let him work metals. If he is fitted to work in soil, let him work in the soil. If he is fitted to do a higher order of work, let him do that; not, however, because it is more honorable, for anything is honorable in this world—and in this country—that you serve honorably.

A few days since a colored lad entered a drug store in Portland with what he described as an 'awful feeling in de stomach, jest like it wor full of fish hooks and angle worms," and demanded a 'Seltzer powder,' as he had been advised that it would give relief. Accordingly the Seidlitz powders were dissolved in separate glasses as usual, and placed before him, with instructions to pour one into the other and drink while effervescing. But the sable youth did nothing of the sort. Instead of following the directions, he hastily drank off the contents of one glass and immediately swallowed the other. The effect may be imagined, but not described. The effervescence which should have taken place in the glass before it was drank, took place in the bewildered darkey's stomach, sending streams of the frothy liquid from his mouth, nose, eyes and ears. As soon as the poor fellow could recover breath, he cried out in frightened tones: "My stomach is busted; I can't live a minute!" In a few minutes, however, he felt better, and turning to depart, he said: 'Dat stuff may work well nuff on de white trash, but it's sure def on a nigger."

A LONG PRAYER.—Jonathan says he couldn't help laughing the other day at an anecdote of a man accustomed to making long prayers, who had persuaded a guest, greatly against his inclination to stay for breakfast. He prayed and prayed, till his impatient guest began to think of edging quickly away, and walking off—but in attempting it he waked the old man's son, who was sleeping in his chair.'

'How soon will your father be through?' whispered the guest.

'Has he got to the Jews?' asked the boy, in reply.

'No,' said the other.

'Well, then he ain't half through,' replied the boy, and composed himself again to his nap; whereupon the guest bolted at once.

The practice of tearing down or mutilating handbills prevails in this town to an extent that calls for the enforcement of the law on the subject. Men who advertise their business are entitled to protection, and persons caught tampering with handbills, should be promptly prosecuted. For the benefit of all concerned, we publish the following general law: "That any person caught mutilating, destroying, tearing down or removing any show bill, placard, programme, poster, or other advertisement, posted upon any wall, fence, bill board or other structure, shall be fined not less than twenty-five dollars nor more than one hundred dollars for the first offence, and for the second offence the penalty shall be imprisonment in the county jail not less than three or more than six months.

CHICKEN CHOLERA.—A very scanty supply of grain, required an excess of green food, or an unwholesome diet of any description, or a wet run for fowls, are the principal causes of this disease. Six grains of rhubarb, six grains of powdered chalk, and three grains of cayenne pepper may be given. If the disease is not soon checked, give one grain of opium and one grain of ipecac every four hours.

Mrs. Josephine Simpson, of Toledo, is in the lumber business, and not only attends to her own buying and selling, but owns a canal boat, goes into the woods, buys the trees standing, hires her choppers and loggers, etc. She never asks for advances till her contracts are strictly fulfilled, and then wants cash down. She has thus accumulated a fortune of $20,000.

Many English farmers feed no hay to their work horses, but keep them in high order with straw, roots and shorts. The equivalent of twelve tons of hay can be produced on one acre in roots. Farmers in this country will eventually bring vegetables more into use as stock feed, for roots are cheap, healthy and nutritious.

A WORD TO BOYS.—Begin early in life to collect libraries of your own. Begin with a single book. And when you find or hear of any first-rate book, obtain it if you can. After a while get another as you are able, and be sure to read it. Take the best care of your books. And in this way, when you are men, you will have good libraries in your heads, as well as on your shelves.

A SORRY CASE—That of a Yankee tailor who dunned a man for the amount of his bill. The man said he was 'sorry, very sorry indeed, that he could not pay it.'

'Well,' said the tailor, 'I took you for a man that would be sorry; but if you are sorrier than I am, I knock under.'

A man in New Hampshire the other day ate fifteen dozen raw oysters on a wager. The silver trimmings on his coffin cost twelve dollars and thirty-five cents.

MRS. ALLEN'S

Hair Restorer & Zylobalsamum

Are so uniformly grateful and beneficial, that they are with justice called the natural strengtheners of the human hair. They are two entirely separate and distinct preparations, not to be used together at one time.

Mrs. Allen's Hair Restorer

Never fails to satisfy the most refined and cultivated. A guarantee goes with every bottle, that it will quickly restore gray or white hair to its original youthful beauty, gloss and color; after its use a few times the hair will grow thicker and stronger. It will stop its falling and induce a healthy and luxuriant growth. It is an exquisite hair dressing, agreeable, harmless and healthy. Entirely different from most other preparations for the hair, its composition and ingredients are nourishing, giving life and vigor to the Roots.

Mrs. Allen's Zylobalsamum

This exquisite preparation is free from any sediment, and is a toilet treasure. The urgent want of a simple Hair Dressing, for the youth of both sexes, first induced the manufacture of the Zylobalsamum, and the sale of it is perfectly immense, not only in this country, but in Europe.

EXTRACTS FROM A FEW LETTERS.

"Your Zylobalsamum is used by every member, young and old, of our family, and we consider it invaluable. Should any gray hairs appear, we shall try your Hair Restorer, which we hear very highly spoken of"

"Father and mother use your Hair Restorer, and are delighted with it It soon restored their gray locks to their youthful color, but daughters and son still find in the Zylobalsamum all their hair requires."

From the Principal of one of our large Female Seminaries: "Your Zylobalsamum has been used for many years by myself and family, and is the favorite among our young ladies."

Sold by all Druggists. Wholesale Depot, S. R. VAN DUZER & CO., 35 Barclay St. and 40 Park Place, New-York.

Massillon July 24th 1867.

DR. PIERCE'S ALT. EXT. OR GOLDEN MEDICAL DISCOVERY

This is the most thorough blood purifier yet discovered, and cures all humors from the worst scrofula to a common eruption. Pimples and blotches on the face, and a scaly or rough skin, which are such annoying blemishes to many young persons, yield to the use of a few bottles of this wonderful medicine. From one to eight bottles cures salt rheum, erysipelas, scald head, ring worms, boils, scaly eruptions of the skin, scrofula sores, ulcers, and canker in the mouth and stomach. It is a pure medicinal extract of native roots and plants, combining in harmony nature's most sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick. It is a great restorer for the strength and vigor of the system. Those who are languid, sleepless, have nervous apprehensions or fears, or any of the affections symptomatic of weakness, will find convincing evidence of its restorative power upon trial. If you feel dull, drowsy, debilitated and despondent, have frequent headache, mouth tastes badly in the morning, irregular appetite and tongue coated, you are suffering from torpid liver or biliousness. In many cases of liver complaint only a part of these symptoms are experienced. As a remedy for all such cases Dr. Pierce's Golden Medical Discovery has no equal as it effects perfect cures, leaving the liver strengthened and healthy. For the cure of habitual constipation of the bowels it is a never failing remedy, and those who have used it for this purpose are loud in its praise. In bronchial, throat and lung diseases, it has produced many truly remarkable cures, where other medicines had failed. Sold by druggists at $1 per bottle. Prepared at the Chemical Laboratory of R. V. PIERCE, M. D. Buffalo, N. Y. 63-3m
